What makes Les Encres special?

Everything we do is to enhance your vision of beauty. The beauty of growing your business, helping your patients and setting the standard of excellence. We not only offer unmatched training material and business development tools specifically designed to solidify your return on investment, we also provide our partners with:

- A dedicated Clinical Specialist who is available to you to answer all your questions and ensure your team is confident and skilled on the art of thread insertion.
- A Custom Designed Thread Pouch. We designed our product pouch to resist heat and moisture, maintaining product stability and viability more so than any other thread pouch in the market today. This is a crucial step in quality product delivery. If the contents of the pouches are not diligently protected from heat, light and moisture the chemical compound of the sutures can begin to break down and oxidize.
- Peace of mind. Les Encres is registered with the FDA (#10058431) and offers a General Liability and Product Liability Insurance Policy. We are the only thread company in the industry to have \$1,000,000 liability policies, both General and Product liability.
- An Unsurpassed Thread Selection; PDO, PLLA PCL and HA PCL. Les Encres has THE largest thread selection in the market which allows you to fully customize your thread treatments and better meet your patient's needs.
