

EXOSOME POST TREATMENT APPLICATION PROTOCOL

PROFESSIONAL USE PROTOCOL

ERC & ERC+ MIXING DIRECTIONS:

Exosome Regenerative Complex (ERC)

Exosome Regenerative Complex + (ERC+)

1. Unboxing & Unpackaging:

Remove from refrigerator. Open carton and remove both vials [1 Vial of Diluent] [1 Vial of Lyophilized Exosomes].

Remove the metal seals and rubber stoppers from both the vial of Diluent and vial of Lyophilized Exosomes.

2. Reconstitute:

Using a needleless syringe, draw out Diluent [5 mL] and reconstitute the Lyophilized Exosomes [20 mg].

Replace rubber stopper and shake gently until fully dissolved.

3. Use:

Using the full vial, draw out the reconstituted ERC and ERC+ and apply a generous amount of solution to clean skin in areas where a EXO-XOM Facial or EXO-XOM Scalp Treatment was conducted.

4. Follow Up:

Follow with appropriate moisturizer and protection.

Disclaimer: BENEV Exosome Regenerative Complex and BENEV Exosome Regenerative Complex + are post care "topical use" cosmetic solutions. These products are not drug products. They are not intended to prevent, treat or cure diseases or medical conditions. They are not intended to be injected or delivered intravenously.

APPLICATION PROTOCOLS:

EXOSOME REGENERATIVE COMPLEX

● ERC

TREATMENT	INTENSITY	Day of Treatment DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
Microneedling (< 2 mm)	Light	●				
Intense Pulsed Light	Light	●				
Microneedling (2 mm >)	Mild	●	●			
RF Microneedling	Mild	●	●			
Plasma Pen (or similar)	Mild	●	●			
Non-Ablative Laser	Mild	●	●			
Chemical Peel	Mild	●	●			

EXOSOME REGENERATIVE COMPLEX +

● ERC+

TREATMENT	INTENSITY	Day of Treatment DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
Erbium Laser	Mild	●	●			
Chemical Peel	Aggressive	●	●	●		
Fraxel Laser	Aggressive	●	●	●		
CO2 Laser	Aggressive	●	●	●	● (opt)	● (opt)
RF Microneedling	More Aggressive	●	●	●	● (opt)	● (opt)

* In the instances of more aggressive treatments and the wound is exuding wait until that has reduced and some epithelialization is beginning then apply ERC+

NOTE:

Optimizing Treatment Results with Exosome Technology

Optimal EXO-XOM Facial and Scalp treatment results are achieved with integration of BENEV Exosome Regenerative Complex [ERC] or BENEV Exosome Regenerative Complex + [ERC+]. Post-Professional Treatment Application of either ERC or ERC+ in the clinic is as crucial as Patient Home Care. We urge practitioners to build the cost of 1 unit of ERC or ERC+ for Post-Professional Treatment Application along with the number of ERC or ERC+ units for Patient Home into the cost of every procedure.

A minimum of 5 Treatments are recommended for EXO-XOM Facial Treatments. Treatments are to be spaced 1-2 weeks apart with the 5th treatments being up to 1 month apart. Maintenance treatments are suggested to be conducted no less than once every 2 months to maintain and optimize treatment results.

A minimum of 10 Treatments are recommended for EXO-XOM Scalp Treatments. Treatments are to be spaced 1-2 weeks apart. Maintenance treatments are suggested to be conducted no less than once every 2 months to maintain and optimize treatment results.
