

# Derm Qode Lab.

## Advanced Skin Perfecting Glowing

- ✓ Improve skin texture
- ✓ Increase radiance
- ✓ Minimize enlarged pores
- ✓ Reduce excess of sebum

# High-performance Mandelic Acid-Salicylic Acid peel with HA LWMW complex and Phytosphingosine to improve the look of the skin for a natural glow and clear skin imperfections.

## Main features and results

- 32% AHA and BHA complex breaks down dead skin cells and encourages collagen production.
- Mandelic acid plays an antibacterial activity and help acne prone skin. Such effect is amplified by the presence of salicylic acid, which plays a precursor activity to enhance this benefit.
- Salicylic and Mandelic acids acid also has a sebum-regulating and anti-inflammatory activity that is amplified by Phytosphingosine, which acts as bacteriostatic and anti-inflammatory agent.
- Hydrolyzed Glycosaminoglycans and Hyaluronic Acids in 2 molecular weights prevent exfoliation and moisturize the skin.

## Key Ingredients

Mandelic Acid, Salicylic Acid, Phytosphingosine, Hydrolyzed Glycosaminoglycans, Hyaluronic Acids LWMW.

**Product category:**  
Professional

**Recommended for:**  
dull, dehydrated,  
acne prone skin,  
uneven skin texture

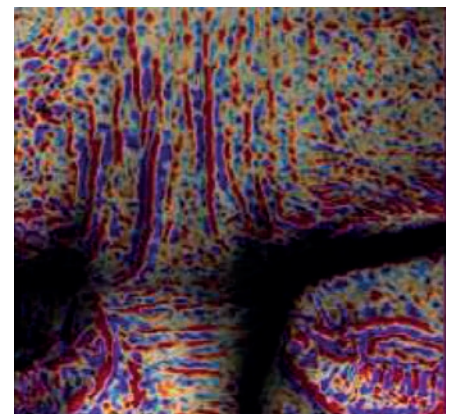

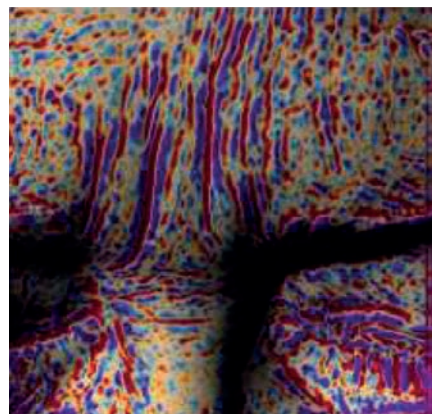

**Regimen:**  
Treatment

**Frequency:**  
Improve radiance  
1 session

**Improve skin texture**  
3 sessions, weekly  
(every 7 days)

**Skin Type:**  
all

**Treatment area:**  
face and body

Measurement with:  
Antera 3D® camera developed by Miravex Limited  
Minolta Chromameter CR-300

Before

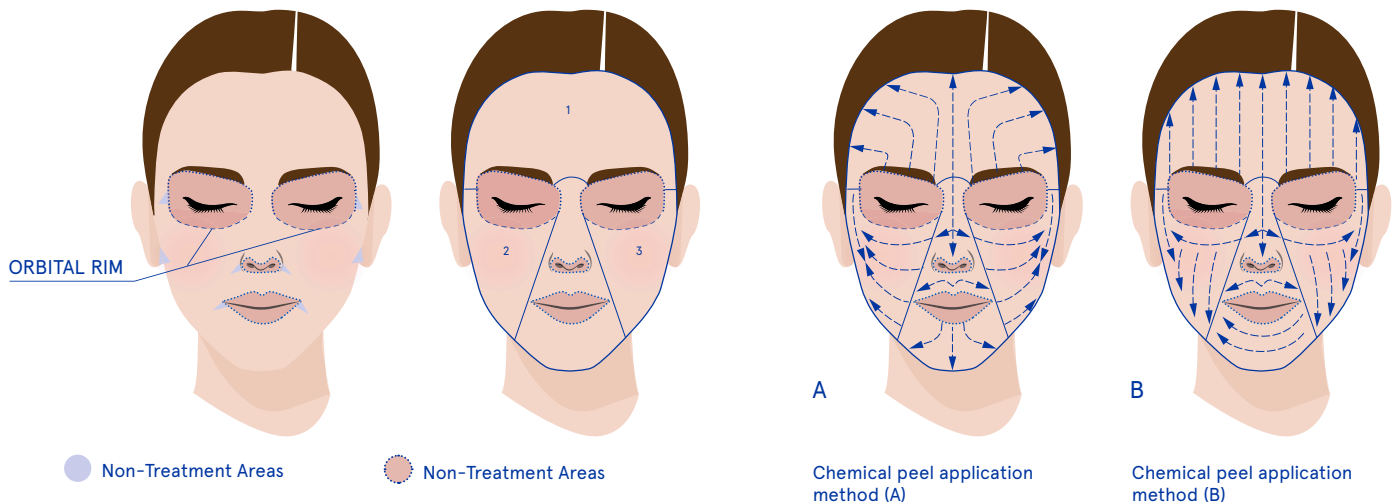

After 3 session

# Directions

1. Clean and dry the skin;
2. Apply Advanced Skin Perfecting GLOWING using a brush or with hands covered with nitrile gloves, following the directional guides and avoiding eye area and mucous membranes;
3. Deliver it to the skin with gentle circular movements until the full product absorption;
4. Evaluate customer's sensations and skin during application. If no extreme sensations are present, proceed with the application of 2nd and 3rd layers (3 layers totally, 3ml of product needed for face, neck and décolleté);
5. Leave on the skin for up to 15 minutes;
6. Remove the product's residual with a wet wipe;
7. Dry the skin. Apply Q.SUPREME Face Cream for normal and sensitive skin, in case of facial treatment, or Q.BODY Replenishing Body Cream, in case of body treatment;
8. Continue to apply Q.SUPREME or Q.BODY on the days following application.

## DIRECTIONAL GUIDE

### WARNINGS

For external use only. Keep out of reach of children. Do not swallow. Avoid contact with eyes. Do not use after the expiry date stated on the packaging. Store in a cool, dry and clean place, away from heat and light sources. Do not use in case of individual hypersensitivity to one or more ingredients. Apply on intact skin only. Discontinue in case of adverse reactions. Dispose the container in accordance with local regulations. Avoid release into the environment.

## Precautions

- Perform accurate skin assessment before the application.
- Do not use Advanced Skin Perfecting PLUMPING if patient is using Accutane (or other systemic acne treatment) or used it in the past 3 months.
- Never apply Advanced Skin Perfecting GLOWING after another AHA or BHA containing products, used in the day of treatment (scrubs of any type etc.).
- Do not use Retinol containing products at least 2 days before the treatment.
- Keep Advanced Skin Perfecting GLOWING at least 5mm away from the eyes and mucous membranes.
- If severe skin irritation occurs, remove the product by rinsing with cool water and apply the skin moisturizer.
- Do not apply to irritated skin or skin with open wounds or after extraction (cosmetic cleaning).
- Remind patient not to expose to the sun for 24 hours before or after the application of Advanced Skin Perfecting GLOWING. Then use a minimum SPF 30 on a daily basis.
- Slight reddening of the skin may occur for a limited period of time especially with sensitive skin types.

## About DERMQODELAB

Beauty today is facing every day with a greater sense of well-being. Self-care and finding balance in our inner and outer equilibrium lead to a more fulfilling and gratifying lifestyle.

We are inspired by offering a cosmetic that lifts the spirit and mood, by the willingness to help people to enhance their natural beauty to live a full and joyful life, creating innovative and hi-tech solutions, respecting the environment and with a universal approach.

Our professional and home care treatments and routines cater to a wide range of skin types, tones and needs, promoting beauty standards that are accessible to everyone.

We have the desire to give our small contribution to bring a positive thought and make room for those who, like us, believe in the importance of respect, that happiness is in the simple things of everyday, that projects must be tackled with passion so that they succeed, and that we have been created with an intelligence that must be used to build wonderful things.

We aim to help our clients to feel more powerful, more beloved and more confident about themselves.

**DERM** The SKIN is our main goal. We are focused on taking care of the patients' skin revealing its potential at any age.

Our products increase radiance and give a younger and naturally healthy look, respecting the diversity, that characterizes unique traits of everyone.

We are in support to the dermatologists, offering solutions for their customers' satisfaction.

**QODE** We promote innovation and sustainability. We are committed to a minimal impact.

We believe that technology, if responsibly used, can be a tool to improve our lives so we act by analyzing the impact of each of our choices.

Designed for everyone and for all ages.

**LAB** Our LABORATORIES are specialized in the production of cosmetic products.

We take seriously the Quality in sourcing the materials, in the production processes, in offering our service.

This is because we are aware that we have only one boss, the Customer.

This is our QODE.

## Skinimalism: simplify your beauty routine and get the perfect recipe for your skin in 6 simple daily steps

Our one and only target is the SKIN and with our 6 home care formulations we deliver everything your skin needs, in the spirit of quality, simplification and minimalism, using ingredients of natural origin and without valueless additive, to help you glow and (re)discover your body, reducing unnecessary steps and waste.

Skin is one of our most important organ.

We DECODED the secret of your skin to create a new approach to your daily routine for a glowing skin in 6 steps and with a few targeted products. A natural luminous, healthy skin, more attention to the body, more time for ourselves.

Less means more health for the SKIN.

## Advanced Skin Perfecting Plumping

- ☑ Plump up fine line and wrinkles
- ☑ Reduce pigmentation
- ☑ Reduce skin imperfections

Topical multi acid gel for face, neck and décolleté with powerful ingredients to plump up fine lines and wrinkles, reduce pigmentation and skin imperfections.

## Main features and results

- 42% multi acid complex.
- Ferulic acid has strong antioxidant properties, which is directly involved with its protective role to cellular structures and inhibition of melanogenesis.
- Glycolic acid allows the dead cells to slough off, leaving behind a smoother skin surface with clearer pores and helps stimulate collagen formation.
- Phytic Acid is capable of inactivating tyrosinase, the enzyme which causes hyperpigmentation and is also characterized by significant rejuvenating and lifting effect.
- The succinate anion is involved in the Tricarboxylic Acid (TCA) Cycle and links cellular metabolism, especially ATP formation, to the regulation of cellular function.

## Key Ingredients

Ferulic Acid, Glycolic Acid, Phytic Acid, Succinic Acid.

**Product category:**  
Professional

**Recommended for:**  
sun damaged,  
sensitive, dry,  
sagging skin with  
uneven tone.

**Regimen:**  
Treatment

**Frequency:**  
3 sessions, weekly  
(every 7 days)

## Directions:

1. Clean and dry the skin;
2. Apply Advanced Skin Perfecting PLUMPING on face and neck using a brush or with hands covered with nitrile gloves, following the directional guides and avoiding eye area and mucous membranes;
3. Deliver it to the skin with a gentle pressure;
4. Allow to absorb it properly for 1 minute;
5. Evaluate customer's sensations and skin during application. If no extreme sensations are present, proceed with the application of 2nd and 3rd layers (3 layers totally, 3ml of product needed for face and neck);
6. Leave on the skin for up to 10 minutes;
7. Remove the product's residual with a wet wipe;
8. Dry the skin;
9. Apply Q.SUPREME Face Cream for normal and sensitive skin after the application and on the days following the application.

### DIRECTIONAL GUIDE

### WARNINGS

For external use only. Keep out of reach of children. Do not swallow. Avoid contact with eyes. Do not use after the expiry date stated on the packaging. Store between +4°C/+8°C. Do not use in case of individual hypersensitivity to one or more ingredients. Apply on intact skin only. Discontinue in case of adverse reactions. Dispose the container in accordance with local regulations. Avoid release into the environment.

#### Sunburn Alert

This product contains Alpha hydroxy acids (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure the week after the application.

## Precautions

- Perform accurate skin assessment before the application.
- Do not use Advanced Skin Perfecting PLUMPING if patient is using Accutane (or other systemic acne treatment) or used it in the past 3 months.
- Never apply Advanced Skin Perfecting PLUMPING after another AHA or BHA containing products, used in the day of treatment (scrubs of any type etc.).
- Do not use Retinol containing products at least 2 days before the treatment.
- Keep Advanced Skin Perfecting PLUMPING at least 5mm away from the eyes and mucous membranes.
- If severe skin irritation occurs, remove the product by rinsing with cool water and apply the skin moisturizer.
- Do not apply to irritated skin or skin with open wounds or after extraction (cosmetic cleaning).
- Remind patient not to expose to the sun for 24 hours before or after the application of Advanced Skin Perfecting PLUMPING. Then use a minimum SPF 30 on a daily basis.
- Slight reddening of the skin may occur for a limited period of time especially with sensitive skin types.

# CUSTOMIZED TREATMENT ADVANCED SKIN PERFECTING MIXING APPLICATION PROTOCOL

POWERED BY  
DR. VIKTOR SHAVLAK  
FOR

**Derm  
Qode  
Lab.**

Mixing Advanced Skin Perfecting GLOWING and Advanced Skin Perfecting PLUMPING in a treatment offers several benefits, enhancing the overall effectiveness and tailoring the procedure to specific skin needs.

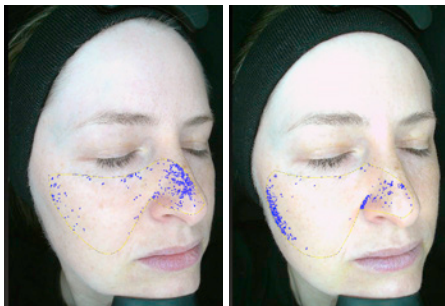

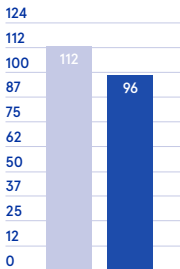

Main key advantages:

- Enhanced Efficacy:** Each peel has distinct properties and mechanisms of action. Using a combination can address multiple issues simultaneously, leading to more comprehensive improvements.
- Targeting Multiple Skin Concerns:** Each peel addresses different skin issues. By mixing Advanced Skin Perfecting GLOWING and Advanced Skin Perfecting PLUMPING, practitioners can create a customized treatment that targets multiple concerns simultaneously, such as acne, hyperpigmentation and signs of aging.
- Synergistic Effects:** DermQodelab multi-acid peels work synergistically, enhancing each other's efficacy.
- Personalization:** the strategic combination of **Advanced Skin Perfecting GLOWING** and **Advanced Skin Perfecting PLUMPING** allows for a more versatile, effective and patient-specific approach to skin rejuvenation and treatment.

**Indication:**  
GLOW&PLUMP  
Measurement with V8  
SkinAnalyzer,

# PROCEDURE STEPS

1. Select the appropriate products and quantity according to indications contained in the table below.
2. Place the right amount of product in a small cup and mix them by using a brush or a spatula or mix them using 2 syringes and a syringe connector.
3. Clean and dry the skin.
4. Apply the first layer following the Directional Guide and the proper application technique until full product absorption.
5. Allow 1-2 minutes to observe and evaluate skin response after first layer application. Patient might sense slight skin heating after the application. **DO NOT LEAVE ON THE SKIN FOR MORE THEN 2 MINUTES.**
  - a) If customer is experiencing extreme irritation, excessive redness or discomfort within 1-2 minutes, immediately remove the product using a wet wipe twice. Dry the skin using a paper towel and proceed with Q.Supreme Face Cream for Normal and Sensitive Skin application.
  - b) If no extreme sensations, excessive redness or discomfort are present, proceed with the application of the next layer.
6. Apply the number of layers according to the table below, following the Directional Guide and the proper application technique until full product absorption.
7. Leave the last layer on the skin for up to 10 minutes.
8. Remove product's residual with a wet wipe.
9. Dry the skin.
10. Apply Q.SUPREME Face Cream for Normal and Sensitive Skin.

## PROTOCOL RECOMMANDATIONS:

- Remind patient not to expose to the sun for 24 hours before or after the procedure. Then use a minimum SPF 30 on a daily basis.
- Use the mixed solution only during the treatment session. Do not store it for later use.
- Protocol to be applied according to practitioner's indication based on the specific skin conditions of the patient.

INDICATION	MIXING QUANTITIES & LAYERS	SESSIONS
Improve skin texture	Advanced Skin Perfecting Glowing – 2ml Advanced Skin Perfecting Plumping – 1ml	3 treatments, once a week.
Reduce post acne pigmentation and scars	3 layers	
Donate a glowing appearance to the skin		
Plump up fine lines and wrinkles	Advanced Skin Perfecting Glowing – 1ml Advanced Skin Perfecting Plumping – 2ml	3 treatments, once a week.
Improve skin elasticity	3 layers	
Reduce hyperpigmentation of different origin		
GLOW and PLUMP (Special occasion protocol)	Advanced Skin Perfecting Glowing – 2ml Advanced Skin Perfecting Plumping – 2ml  up to 4 layers, depending on patient's sensation.	1 treatment

# CUSTOMIZED TREATMENT MICRONEEDLING

POWERED BY  
DR. VIKTOR SHAVLAK  
FOR

**Derm  
Qode  
Lab.**

**Microneedling** is a collagen induction therapy and has been shown to have incredible effect on the health and beauty of your skin. By inflicting plenty of micro-wounds, it induces the body to self-regeneration, producing new collagen, new elastin in the skin and forming new capillaries.

**Advanced Skin Perfecting GLOWING**, thanks to the active substances herein contained, promote cellular turnover and encourage collagen production. In addition, Mandelic Acid and Phytosphingosine play an anti-bacterial and anti-inflammatory activity, while Hyaluronic Acid and Hydrolyzed GAGS supply water to the skin, keeping it moisturized and preventing exfoliation.

Ferulic Acid contained in **Advanced Skin Perfecting PLUMPING** has strong antioxidant properties, which is directly involved with its protective role to cellular structures and inhibition of melanogenesis. Glycolic acid allows the dead cells to slough off, leaving behind a smoother skin surface with clearer pores and helps stimulate collagen formation. Phytic Acid is capable of inactivating tyrosinase, the enzyme which causes hyperpigmentation.

BEFORE

AFTER 1 TREATMENT

\*protocol: plump up fine lines and wrinkles

---

## THE COMBINED PROTOCOL IS EFFECTIVE FOR

- Reducing scars caused by acne, surgery or burns
- Fading stretch marks
- Reducing fine lines and deep wrinkles
- Pigmentary changes (e.g. in melasma)
- Tightening sagging skin

# Microneedling techniques

INDICATION	PROTOCOL	SUGGESTED NEEDLING TECHNIQUE	SESSIONS
<p>Improve skin brightness</p> <p>Plump up fine lines and wrinkles</p>	<ol style="list-style-type: none"> <li>Clean the skin.</li> <li>Apply numbing cream, if needed.</li> <li>Apply one layer of ADVANCED SKIN PERFECTING GLOWING following the basic application protocol. Leave on the skin for up to 5 minutes.</li> <li>Apply one layer of ADVANCED SKIN PERFECTING PLUMPING with a gentle pressure. Evaluate customer's sensations and skin during application. Leave on the skin for 1 minute.</li> <li>Apply the second layer of ADVANCED SKIN PERFECTING PLUMPING and proceed with microneedling according to desired technique and depth.</li> <li>Remove product residual with a wet wipe. Dry the skin.</li> <li>Apply Q.COMPLEX Regenerative Serum with HA+Vit.C.</li> </ol>	<p>0.2-0.5mm, roller or electromechanical pen.</p> <p>Linear motions, from top to bottom or from side to side, lifting the needle tip (or roller head) between each stripe instead of a zig zag motion to avoid unnecessary reinsertions.</p>	<p>3 treatments, once a week.</p> <p>*according to professionals' indication</p>
Improve acne scars	<ol style="list-style-type: none"> <li>Clean the skin.</li> <li>Apply numbing cream, if needed.</li> <li>Apply one layer of ADVANCED SKIN PERFECTING GLOWING following the basic application protocol.</li> <li>Apply the second layer of ADVANCED SKIN PERFECTING GLOWING and proceed with microneedling according to desired technique and depth.</li> <li>Apply the third layer of ADVANCED SKIN PERFECTING GLOWING. Leave on the skin for up to 10 minutes.</li> <li>Remove product residual with a wet wipe. Dry the skin.</li> <li>Apply Q.COMPLEX Regenerative Serum with HA+Vit.C.</li> </ol>	<p>1.0-1.5mm electromechanical pen.</p> <p>Linear motions, from top to bottom or from side to side While exerting a constant pressure, treat in both diagonal directions. Focus on ice-peak scars with more frequent needling motions and/or needle depth.</p>	<p>4 treatments</p> <p>Every 2 weeks (1.0 mm depth)</p> <p>Every 3 weeks (1.5 mm depth)</p> <p>Maintenance procedures may be performed 3 months after initial course.</p> <p>*according to professionals' indication</p>
<p>Improve Hyperpigmentation:</p> <ul style="list-style-type: none"> <li>Lentigines and sunspots</li> <li>Post-inflammatory hyperpigmentation</li> <li>Freckles</li> <li>Melasma</li> </ul>	<ol style="list-style-type: none"> <li>Clean the skin.</li> <li>Apply numbing cream, if needed.</li> <li>Apply one layer of ADVANCED SKIN PERFECTING GLOWING following the basic application protocol.</li> <li>Apply one layer of ADVANCED SKIN PERFECTING PLUMPING with a gentle pressure and proceed with microneedling according to desired technique and depth.</li> <li>Apply the second layer of ADVANCED SKIN PERFECTING PLUMPING. Leave on the skin for up to 10 minutes.</li> <li>Remove product residual with a wet wipe. Dry the skin.</li> <li>Apply Q.COMPLEX Regenerative Serum with HA+Vit.C.</li> </ol>	<p>0.5-1.0mm roller or electromechanical pen</p> <p>Linear motions, from top to bottom or from side to side</p> <p>While exerting a constant pressure, treat in both diagonal directions.</p> <p>The response of pigmentation to needling depends on how deep the pigmentation is. The shallower, the easier to address it. Microneedling speeds up the turnover of the skin and that improves pigmentations</p>	<p>4 treatments or until desired results are achieved.</p> <p>Once a week (0.5 mm depth)</p> <p>Every 2 weeks (1.0 mm depth)</p> <p>*according to professionals' indication</p>

# CUSTOMIZED TREATMENT SKIN BOOSTER

POWERED BY  
DR. VIKTOR SHAVLAK  
FOR

**Derm  
Qode  
Lab.**

Combining injectable skin boosters and chemical peels in the same session can offer several potential benefits, as both treatments target different aspects of skin health at varying depths.

Injectable skin boosters, often containing hyaluronic acid or other skin-revitalizing ingredients, work on the dermal level, providing hydration and plumpness to the skin. These boosters can address concerns related to volume loss and skin elasticity.

On the other hand, multi-acid peels, work on superficial and medium layers of the skin. Advanced Skin Perfecting GLOWING and Advance Skin Perfecting PLUMPING are effective in brightening the skin, reducing excess sebum, minimizing enlarged pores and reducing skin imperfections, revealing a fresher, more radiant complexion.

By combining these treatments, you can achieve a comprehensive approach to skin rejuvenation.

Injectable skin boosters address deep hydration and volume concerns, while chemical peels enhance the skin's texture, reduce pigmentation irregularities, and improve overall skin tone. This dual approach can provide synergistic effects, leading to a more balanced and revitalized appearance.

\*the success of combining these treatments depends on factors such as individual skin type, concerns, and the specific products used. Always consult with a qualified dermatologist or skincare professional to assess skin's needs and determine the most suitable combination and approach for desired results.
