— THREADS —

Welcome to Les Encres.

Everything we do is to enhance your vision of beauty;  
the beauty of profitability, education, science and  
safety.

The English translation of Les Encres has two meanings  
'the inks' and/or 'the anchors.' At Les Encres, we  
believe the body is a canvas, our clinical tools are the  
ink and each skilled brush stroke reverses the effects of  
time.

Through the efficient distribution of high-quality  
medical devices and the delivery of  
superior customer service to aesthetic professionals just  
like you, it is our mission to be recognized as a  
respected, international brand of goods and  
services.

Our company name also has a second interpretation  
to the French basis of Les Encres, 'the anchors.' The  
Les Encres organization is structured for growth, based  
on the foundation of being known as the most  
clinically sound, credible, customer-centric leaders in  
the cosmetic suture space. Designing our reputation  
and brand, not just our products, as the anchor of our  
business.

We help you bring the artistry of cosmetic threading to  
life.

Les Encres threads can be used in conjunction with your existing treatment modalities and produce a high return on invest from a business perspective. Some of the most popular treatment areas include:

Forehead Lines

Brow Droop

Frown Lines

Crow's Feet

Acne Scars

Bunny Lines

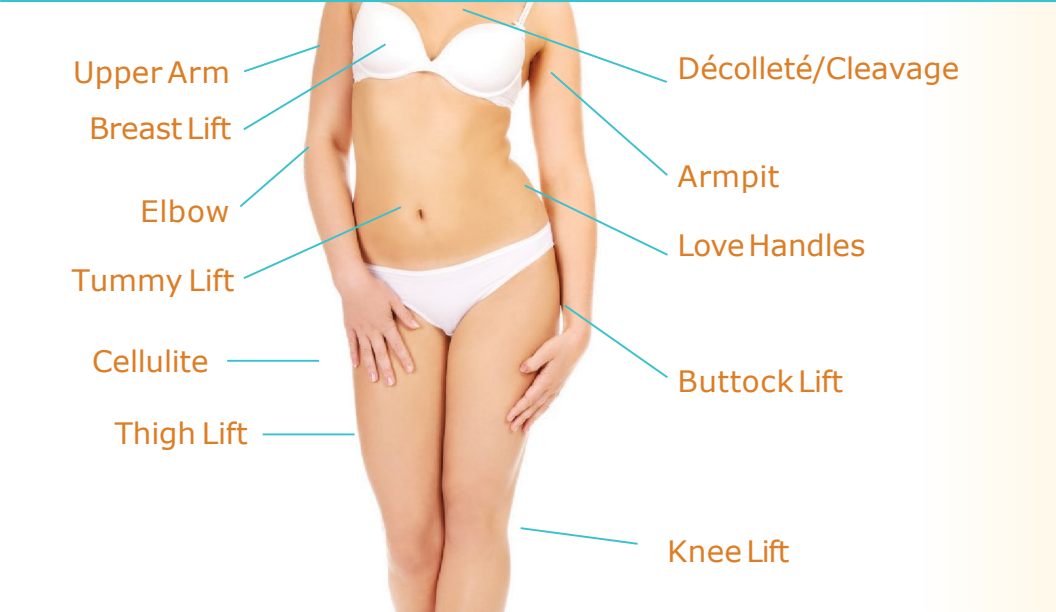

Smile Lines

Lip Lines

Marionette Lines

Jowls

Neck Lines

Upper Arm

Breast Lift

Elbow

Tummy Lift

Cellulite

Thigh Lift

Décolleté/Cleavage

Armpit

Love Handles

Buttock Lift

Knee Lift

## **SUPPORT THAT IS ALL ABOUT YOU**

What sets us apart is our turn-key business model and belief in excellence. We believe in supporting you through extensive customizable educational sessions.

To increase your ROI, our comprehensive business development tools and marketing package helps you quickly grow your threading practice and educate your patients on the benefits of threading.

Our Artistry Points Program offers generous opportunities for discounts and complimentary goods & services.

We are the only thread company that markets directly to potential patients to help capture your ROI.

As a valued Les Encres provider, you have access to our Clinical Concierge who is dedicated to your practice and is available to answer all your threading questions.

We are the only cosmetic suture company in the industry to have \$1,000,000 liability policies, both General and Product liability. No other thread company provides this level of security to and your patients.

Our leadership team is guided by Dr. Jonathan Sykes, MD, F.A.C.S. Dr. Sykes has performed over 20,000 surgical procedures and is an expert in rhinoplasty and aging related surgeries such as facelift, browlift, and eyelid lift surgery. He is an editor of 6 textbooks and has written over 200 scientific articles, book chapters, and other papers in medical literature. His expertise is woven into the five core values of the Les Encres organization...

**Safety Minded**

**Science Based**

**Education Powered**

**Heart Directed**

**Leadership Inspired**

We pride ourselves in supporting you to deliver the most customized treatments for your patients. Les Encres carries a variety of specialty threads for use around the infraorbital area, rhinoplasty region and the rest of the body!

Les Encres Threads are packaged in a custom designed thread pouch. These custom pouches resist heat and moisture, maintaining product stability and viability more so than any other thread pouch on the market today. All our pouches are tracked by lot number and expiration date.

Les Encres has the largest thread selection in the market of FDA approved<sup>(i)</sup> threads and is one of the ONLY providers in the US to carry PCL, PLLA and PDO threads.

Polydioxanone (PDO) provides the perfect balance between strength and softness. The Aesthetic duration of PDO threading has been found to last between 18-24 months.<sup>(ii)</sup>

Poly-L-Lactic Acid (PLLA) is known for its long-term regeneration of collagen and ability to create natural volume. The Aesthetic duration of PLLA threading has been found to last between 18-24 months.<sup>(iii)</sup>

Polycaprolactone (PCL) has been used in the human body as drug delivery devices and as sutures for nearly 50 years. PCL is known for its ability to create more Type I and Type III collagen. The Aesthetic duration of PCL threading has been found to last between 2-4 years.<sup>(iv)</sup>
